

## Best Benefits® Program

---

For a small activation fee, the **Best Benefits® Basic Program** allows members to take advantage of 10-60% discounts on health-related products and services that might not be covered by their health and welfare benefits. After the members activate their membership card, they simply call the 1-800 number listed on the back of the card for the location of the nearest participating providers. To use the program, members simply present their membership card when paying for the service. Discounts are taken at the time of purchase, so there are no rebates to collect or claim forms to fill out. The program also has an optional upgrade. It's called the Gold Program. It allows an upgrade of the Best Benefits Program to include chiropractic services, discounts on vitamins and nutritional supplements, and a 24-Hour Nurse Line where members can contact a certified nurse in emergency situations.
